

PLZMA.IO WHITEPAPER

INTRODUCTION

Welcome to a truly revolutionary and mission-driven community that is reimagining crypto from the ground up. PLZMA is the first coin where you can save lives and donate blood with each transaction. We are leveraging the power of blockchain and social good to create a win-win scenario for all stakeholders. Start saving, spending, and sharing PLZMA to save lives immediately. We are a community of healthcare providers and technology driven visionaries that want to leverage DLT x PLZMA to be at the forefront in philanthropic investing.

PARTNERS

TRANSPARENCY

LIQUIDITY

01 | PARTNERS

We have partnered with some of the most important foundations and healthcare organizations throughout the USA to provide them with a constant flow to donations and human capital. Reserves throughout COVID reached critically low levels and are just now beginning to replenish. With enough volume, PLZMA aims to donate 1,000,000 pints of critically needed blood using our platform by the end of 2021.

02 | TRANSPARENCY & GOVERNANCE

PLZMA team believes that transparency is of utmost importance. Leveraging the blockchain, we will share the dedicated wallets to which will be donated accordingly. Every quarter we will publish a report of all philanthropic activities. On our website you will find an active tracker both in dollars and pints of blood donated that is running in real time.

03 | EXCHANGES & LIQUIDITY

As investors and long time crypto supporters, we know the importance of good exchanges and liquidity pools for a project to succeed. We are working with some of the top exchanges and market makers to ensure that PLZMA will be the most liquid charitable token in existence. In order to invest in PLZMA, you can find us on x,y, and z.

COVID-19

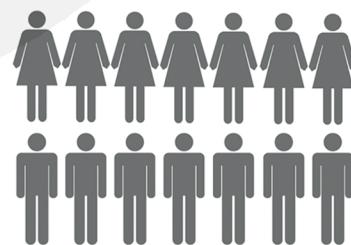

COMMUNITY

04 | REFLECTING ON COVID-19

COVID-19 has shed light on some major inefficiencies and bottlenecks in our healthcare system and its supply chain. Access to blood and its plasma is crucial to the survival of many patients. Our goal is to guarantee the safety and wellbeing of our healthcare providers (HCPs) and patients by funding community outreach programs and blood banks. We will not be able to forget the pandemic, but we can drive change to a better future together and make sure we are more prepared than ever before.

05 | COMMUNITY

Our unique approach ensures a consistently growing community with shared ideals and common goals. Become a PLZMA advocate today and share our project and your support on all relevant social channels. Please join us in discussion actively through Telegram, Discord, Twitter, x,y, and z. Join our community today and let's get blood flowing tomorrow.
